

M365 Exchange Online New Features

Have you heard about the new features that come with the latest version of M365 Exchange Online?

Improved Security

The move to cloud brings improved security, compliance, and scalability including Multi-factor Authentication (MFA).

Increased Capacity

Your mailbox capacity has increased from 8GB to 50GB in storage.

Outlook Mobile App

You now have enhanced on-the-go productivity with the Outlook mobile app.

Access your Teams and OneDrive files directly from the Outlook mobile app for seamless collaboration.

You can now access your shared mailboxes and calendars using the Outlook Mobile app.

Additionally, you can now turn on and manage your Automatic Replies and mail notifications on the Outlook mobile app.

User Tagging

You can now tag people in emails and documents by using the @ feature.

International Access

Email access remains secure when travelling internationally.
